

Goobric Prerequisite:

Goobric is a feature utilized within Doctopus that allows easy grading of digital assignments. You must first enable the Add-on Doctopus before getting started with Goobric.

Once Assignments are Turned In:

START GRADING!!

1. Click on the link for the first student's assignment.
2. While in that assignment's tab, click on the eyeball icon in your URL toolbar. (Another Tab will open)
3. Grade your assignment while filling out the rubric question by question.
4. Submit score. The grade will automatically pop up on the Doctopus Spreadsheet.
5. Move to the next assignment submission easily!

To get Started:

1. In Google SpreadSheet, construct a Rubric that corresponds to the assignment you are giving. If you have a rubric made in Excel already, you can simply upload it to your drive.

Rubrics can be numeric or non-numeric. Values should title the columns and Grading Criteria should title the rows.

2. Follow the steps to create a Doctopus SpreadSheet and "Attach Goobric" in your final steps.
